Remanufactured Celect ECMs

Flight Diesel is offering fully remanufactured ECMs for Cummins® Celect engine applications. These modules undergo our thorough remanufacturing process and are not the “tested OK” or “working core” units being sold in many markets today.

- 100% Tri-Temperature tested
- Completely tested before and after remanufacturing
- Vehicle-specific programming available
- 100% verification to confirm a unit can be programmed prior to final shipment
- Pervasive failure-prone components pro-actively replaced

Flight Diesel PN	Engine
FSR3084473	Early L10 & N14
FSR3618046	M11 & N14
FSR3619037	N14
FSR3090528	N14
FSR3096662	Celect Plus 2nd generation
FSR3408300	Celect Plus 3rd generation
FSR3408303	Celect Plus 4th generation
