New Heavy Duty Product Release

Flight Diesel has released two Detroit® Diesel Series 60 Turbochargers expanding our heavy duty offerings. These two part numbers give 100% coverage for the “On Highway” Series 60 12.7L and 14.0L engines for year range 2004 to 2007.

- Experienced technicians disassemble each turbocharger and route the components through a several step cleaning and inspection process
- All critical to function components are recertified or replaced with new components
- Individual components are balanced to ensure turbocharger longevity and to promote optimum performance
- The VNT vane/actuator mechanism is calibrated for all final assemblies

Flight Diesel PN	Detroit® PN	Garrett® PN	Application
FSR758204-9007	R23534361	758204-9007	14.0L - 515HP
FSR758204-9006	R23534360	758204-9006	12.7L - 455HP

Part numbers other than Flight Diesel are for cross reference only.
