6.0L • 4.5L • VT365 • VT275 Diesel Fuel Injector

Flight Diesel is currently offering a Silver and a Gold model of the G2.8 injector used in Ford® 6.0L Diesel engines. The Silver series injector is the same injector quality we have been offering since the program launched. The Silver series will still carry the 1 year, unlimited mileage warranty.

The Gold series is our upgraded injector and includes 100% replacement of the coil wire assembly and the nozzle assembly. These upgraded injectors carry a warranty of 2 years from date of manufacturer and a continued 1 year labor per previous bulletins.

- Each disassembled injector is processed keeping all components together to minimize part fit variation and maintain original performance
- After cleaning, all injector clearances are measured with precision air gauges to confirm and prevent any fuel leakage passing the critical high-pressure components
- All air gauge data measurements are retained and stored by serial numbers and date. This step gives peace of mind that catastrophic engine dilution problems cannot occur
- After assembly, all injectors are 100% tested and data is recorded for critical engine application checkpoints, to assure a quality product

Description	Model Year	OE # (Ref Only)	Ford # (Ref Only)	Silver PN	Gold PN
VT 365 / 6.0 L International	2002.5 - 2003	1843089C91 1845879C91 1843481C94 1843481C95	3C3Z-9E527-AE (Replaced # 3C3Z-9E527-ABRM)	FS5560W	FSR5560WG
